Objective

I am a beginner Software Engineer who knows Python and enjoys solving problems. I want to use my skills to help with software projects.

Education

School of Management and Science	*BCom (Hons)* 67%	2019 - 2023
Army Public School, Lucknow	Secondary (77.6%)	2018
Army Public School, Lucknow	High School (72.2%)	2016
Graduation Completed in 2023 due to an extended exam timeline		

Projects

ATM Simulation (Python) - Simulated basic ATM functionalities like balance inquiry, cash withdrawal, and Pin verification. - Applied conditional statements and loops to manage user interactions & transaction.
Rameshwaram Café Bill Generation (Python) - Replicated the Rameshwaram café's bill generation using dynamic values
Contact Book - Simple contact management system to add, view, search and delete contacts (CRUD operations)

Skills

- **Programming Languages:** Python (beginner level, currently learning)

- **Tools & Technologies:** Git, GitHub (Ongoing learning)

- **Soft Skills:** decent communication, problem-solving, and time management.

- **Concepts:** Problem-solving, basic data structures (dictionaries), file handling

- **Languages Known:** Hindi, English

Certifications and Courses

- Python (currently learning through Udemy)

- Git & GitHub (Ongoing)

Extracurricular Activities

Air Force Service Selection Board (AFSB) Attended AFSB in Guwahati on two occasions (conference out), gaining insights into leadership and decision-making under pressure.
Army Service Selection Board (SSB) Attended SSB in Prayagraj, demonstrating my determination and readiness for the armed forces selection process.

Hobby

- Sports & Fitness
- Problem Solving
